PROFESSIONAL SUMMARY

Full-stack Software Engineer with 2+ years of experience building and scaling SaaS products across web, mobile, and backend services. Skilled in TypeScript, React, React Native, Node.js, GraphQL, PostgreSQL, Prisma, and AWS. Experienced in payment integrations, automotive dealership workflows, InsurTech platforms, API design, database modeling, and AI-assisted (agentic) development.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, C, SQL, HTML, CSS
Frontend: React.js, React Native, Next.js, Tailwind CSS, shadcn/ui, Zustand, React Query
Backend: Node.js, Express.js, GraphQL, REST APIs, RedwoodJS, Prisma ORM, BullMQ
Databases: PostgreSQL, MySQL, MongoDB
Cloud and Tools: AWS (Lambda, AppSync, S3, RDS), SST, Docker, Git, GitHub, Postman, Vitest
Payments: Finix (tokenization, payment instruments, disputes, payment processing)
AI and Automation: Agentic development workflows, custom AI skill writing, bot automation

WORK EXPERIENCE

Software Engineer **Aug 2025 - Oct 2026**
LeftLane Software Solutions | *Dealership Management System (DMS)*

- Product-focused full-stack engineer building and scaling a Dealership Management System (DMS) across web, mobile, and backend services.
- Developed end-to-end features across payments, customer portals, vehicle management, permissions, document automation, reporting, and dealership workflows.
- Designed and integrated payment workflows including Finix tokenization, payment instruments, disputes, and payment processing.
- Researched and implemented U.S. state-specific automotive, tax, title, registration, F&I, and compliance requirements.
- Contributed to PRDs, TDDs, technical design, API development, database modeling, testing, code reviews, and production releases.
- Leveraged agentic development workflows, including Grok bot automation and custom AI skill writing, to automate development workflows, requirement analysis, research, and implementation.
- Collaborated with product and engineering teams to translate complex business requirements into scalable and maintainable solutions.

Tech: TypeScript, React, React Native, Node.js, GraphQL, PostgreSQL, Prisma, RedwoodJS, BullMQ, AWS, Finix, AI/Agentic Development

Software Development Engineer I **Jun 2024 - May 2025**
BerryBox Benefits | *InsurTech SaaS Platform*

- Developed and maintained scalable backend services using AWS Lambda and AppSync to support real-time application features.
- Built and managed GraphQL APIs with AWS AppSync and Prisma ORM for efficient, type-safe communication between frontend and backend.
- Integrated Order Management, Wallet Management, and Plan Subscription services with the mobile frontend to enable real-time updates and a seamless user experience.
- Optimized Prisma queries in the Wallet system, reducing execution time by 50% (from 30s to 15s).
- Created optimized SQL scripts to track login activity and active sessions, and to generate usage reports across all BerryBox clients.
- Integrated 10+ third-party APIs across the backend (Node.js, AWS) and frontend (React Native), enhancing feature functionality and user engagement.
- Diagnosed and resolved 30+ production issues, increasing system stability and accelerating sprint delivery.
- Implemented employee, organization, and vendor onboarding workflows in the admin dashboard using Next.js, Zustand, Tailwind CSS, and shadcn/ui.

Tech: TypeScript, Node.js, React Native, Next.js, GraphQL, AWS Lambda, AWS AppSync, Prisma, PostgreSQL

PROJECTS

Event Management System | github.com/AravindAnkamalla/event-mangement-admin-dashboard
Tech: Node.js, Express.js, Prisma, PostgreSQL, React.js, TypeScript

- Built a full-stack event platform with a Node.js/Express API, Prisma, PostgreSQL, and a React.js admin portal.
- Implemented role-based authentication, admin-driven user creation, and auto-generated password emails via Nodemailer.
- Built REST APIs for user, event, and registration management with a structured Prisma schema.
- Designed a responsive admin dashboard using React.js, TypeScript, Tailwind CSS, and React Query.

EDUCATION

Bachelor of Technology in Computer Science and Engineering **2020 - 2024**
Rajiv Gandhi University of Knowledge and Technologies (RGUKT), Basar CGPA: 8.2
